Skills

Even though I learn new things everyday, I feel comfortable dealing with **HTML**, **CSS**, **JS** and **PHP**. Recently I've also been playing with Git, Node, Bash and **Python**

On the design side, **Figma** is my go-to app for most of the work and **Illustrator** comes second, followed by **Photoshop**. But I can get along with any tool

Beyond any technical expertise, I believe it's our duty as designers to make people's lives easier

Languages

I speak **portuguese** natively and my **english** is fluent. Also, my family is **spanish** so I understand & speak a little bit of it

Awards

Information is Beautiful
All the Government Barbecues (2017)
Independently published

Other awards include ÑH, Sociedad Interamericana de Prensa, Data Journalism Awards (*shortlist*) & Society for News Design
