Bachelor's degree Incomplete

LISP

Management

It was actually studying science that I discovered my love for design, so I made

Bachelors' degree Complete

LISP

A generalist course that covers visual, service and product design. This is where I've learned that solving human needs is what design is all about

Certified **Online Courses**

IDFO U

Human-Centered Service Design

Harvard **Business School**

Essentials Columbia

University Technologies for Data Science: The Internet of Things

2019 2020

UPCOMING

Malmö University, Sweden 🚟 Interaction Design

Master's degree

A programme to address new societal and professional challenges, teaching the practical and theoretical skills necessary for designing meaningful relations between humans & technology

Skills

Even though I learn new things everyday, I feel comfortable dealing with

JavaScript, HTML & CSS. I've also been playing with Python for data analysis

On the design side, Figma is my go-to app and **Illustrator** comes second. Today, I'm eager to dive into electronics so that I can design & build connected objects

Beyond any technical expertise, I believe it's our duty as designers to make people's lives easier

Languages

I speak **Portuguese** natively and my **English** is fluent. Also, my family is Spanish so I understand & speak a little bit of it

Awards

Information is Beautiful All the Government Barbecues, 2017

Child Adoption Simulation in Brazil, 2019

Other awards include ÑH, Sociedad Interamericana de Prensa, Data Journalism Awards (shortlist) & Society for News Design
